Scott Boersma

Operations Management | Facilities | Process Improvement

Tampa Bay, Florida · 813-860-2389 · mmscottyb@outlook.com

I turn initial concepts into working operations. Combining business management, mechanical design, construction and technology, I improve how organizations work, develop facilities, launch businesses and build practical solutions.

PROFESSIONAL EXPERIENCE

Laird Plastics | Operations & Process Improvement Oct 2018–Present

- Launched CNC production, established procedures, trained employees and developed estimating software for sales.
- Improved office and production workflows, scheduling, turnaround times, facility layouts and logistics.

Hillsborough County Public Schools | Facilities Coordinator 2016–2018

- Coordinated facility maintenance, contractors, work orders, budgets and ongoing historic building restoration.
- Raised and coordinated over $4 million in donations; organized volunteers and distribution to underserved students through the Education Foundation store and selected schools.

TAVAZ | Independent Business & Technical Development Feb 2001–Present

- Full-time prior to 2016; ongoing part-time. Launched businesses and supported business planning, grant applications, facility development, software, prototypes and custom components.

Earlier Management & Industry Experience | Manufacturing leadership · Business development

- Introduced a manufacturing quality program; managed order entry and tooling departments and coordinated office and production operations.
- Launched businesses in industrial art and printing tooling, retail, services and warehousing; built, expanded, revamped and relocated facilities, including work on a major corrugated manufacturing and converting facility.

TECHNOLOGY & COMMUNITY LEADERSHIP

Developed and released CHUCK Intel; created SSTrader, CNC estimating tools and TAVAZ Route Sorter. Coordinate community projects connecting volunteers and young people seeking practical skills with people in need of assistance.

EDUCATION & CREDENTIALS

Bachelor of Science in Business · Silver Lake College
Associate Degree in Mechanical Design · NWTI
Google IT Support Professional Certificate · Google Cybersecurity Specialization
